

BRIEF SUMMARY

Hello, my name is Chetan Patil, and I am a third-year student at MIT Academy of Engineering pursuing a BTech in Computer Engineering. I have a deep interest in competitive programming and web development. I have worked with various technologies such as HTML, CSS, JS, Bootstrap, Django, and Machine Learning.

Every day, I strive to push myself further to enhance my skills and tackle real-world problems.

PROJECTS

Enterprise Recruiter Agency Platform

01 Aug, 2022 - 01 May, 2023

Mentor: Mrs. Ranjana Badre | **Team Size:** 4

Key Skills: Django Python

– Developed a recruitment platform that leverages NLP to match candidate profiles with job requirements, providing a ranking for each candidate's resume. This platform streamlines the recruitment process for recruiters, allowing them to search for job postings from enterprises, send resumes to job posts, and ultimately hire qualified candidates. I implemented various features like user authentication, job posting, resume submission, and shortlisting of resumes based on the matching skills.

NLP-powered Question-Answer platform

01 Jan, 2023 - 03 Apr, 2023

Key Skills: Django HTML CSS Javascript NLP Machine Learning Python

– Created a user-friendly platform that facilitates question-and-answer interactions.
– Employed Natural Language Processing techniques to extract frequently asked keywords, distribute questions by tags (used support vector classifier for this purpose).
